

Pinawa Alliance Church Building Use

Everyone “who enters or remains in an indoor public place must wear a mask in a manner that covers their mouth, nose and chin without gapping.” (Manitoba Health Order, October 4, 2021).

The maximum number of persons permitted for Sunday morning Church Services is 50 in our sanctuary and 16 in our CE Room, unless all persons eligible to be vaccinated provide proof of vaccination.

Seating shall be arranged so people attending Sunday morning services are able to maintain a separation of at least two metres from other persons at the service, other than from persons who reside at the same private residence.

For usages other than our Sunday morning Church Service, the maximum number of persons permitted is 25 in our sanctuary and 12 in our CE Room, unless all persons eligible to be vaccinated provide proof of vaccination. There is no requirement to maintain a separation of at least two metres from other persons in attendance.

If all persons in attendance show proof they are fully vaccinated, the only restriction is to wear a mask as described above.

Sanitize hands upon entry and before leaving the building . You may wash your hands or use the sanitizer in the foyer.

High touch surfaces should be sanitized before leaving, using the protocol detailed below.

Use of the bathrooms is permissible if they are sanitized before leaving as noted above.

Neither food nor beverages may be served by any group using our building. The only food or beverages permitted are those which participants bring with them.

Disinfecting Protocol for Pinawa Alliance Church

If you use Pinawa Alliance Church building during the week for a gathering, please follow this protocol before you leave.

How to disinfect before you leave (All supplies are in the Storage Room.)

1. **Put on disposable gloves**
2. **Grab a green microfiber cloth and the Covid Disinfectant spray**
3. **Clean all high touch surfaces** that you have touched including tables, doorknobs, light switches, handles, countertops, phones, toilets, faucets, etc.
4. **Make your cloth damp. Spray disinfectant on cloth and wipe on surface.** No need to rinse off.
5. Put the cloth in the brown “used rags” bin lined with a plastic bag on storage room floor.
6. Remove gloves and wash hands.
 - Do not use the disinfectant spray on yourself.
